

LIVING AT WORTHINGTON

provides opportunities

for families across the globe.

A portion of your rent payment goes to HOPE International, a nonprofit that empowers more than 630,000 families in 17 countries through discipleship, training, savings services, and small business loans. Since HOPE's inception in 1997, Keystone has been a faithful supporter of HOPE's work through the Homes for Hope program and other donations.

Building a better future

Anastasia started out with a \$50 loan from Turame Community Finance, HOPE's partner in Burundi, and she used it to buy 20 chairs for party rentals. As she worked hard and saved, she expanded her rental business to include 200 chairs, plates, a stereo system, and wedding dresses. Her increased profits enabled her to adopt two girls orphaned in the recent civil war. Anastasia is currently saving to send them to college.
